# Wakelet for the Six C's

Wakelet is a free digital tool for both students and educators at all levels that can be used for curation, collaboration, creativity, communication, citizenship, and critical thinking. Hear about Wakelet School, the Student Wakelet Ambassador Program, and how you can start the path to become a Wakelet Community Leader, while you see examples of how it is used in classrooms, learn how to curate a collection, and collaborate on a shared Wakelet. Participants will have resources in both digital and print to take home with them to reference.
